

*From Carol Villella ... My husband Mike and I worship at St. Peter in Jupiter. I made Women's Cursillo #58 in July 2015. I had heard about Cursillo for many years, and it was suggested by several friends that Mike and I might want to consider attending. For several years, none of the weekends seemed to work well with our schedule.*

*Looking back, we probably weren't ready to go then. God called us to attend last year; we did, and it was a life-changing weekend for both of us! For this, I thank God. The Cursillo weekend renewed my desire and calling to continue my personal relationship with Jesus. It laid out a beautiful plan to live my life in communion with Him each day. The weekend taught me a new approach to evangelization that I use each day, some days more successfully than others! I believe it was the perfect time for Mike and me to attend Cursillo as it strengthened our marital relationship. I lead a women's bible study each week at St. Peter, and I believe that experiencing Cursillo has helped me to serve more effectively in that ministry.*

*The beauty of the weekend is that, unlike other "retreats," Cursillo doesn't end. The Three-Day weekend is just the beginning of our Fourth Day. I have a beautiful community of fellow Cursillistas who are now my new friends. I will forever cherish the new friendships formed during my Cursillo weekend as well as the opportunity to renew old friendships. I am blessed with beautiful women that I group with on Thursday evenings. We support, pray, and encourage one another in our walk with Christ. I know God has a plan for my life and with His daily guidance I will walk by His side confidently, knowing that He will lead me. And when I stray or fall, I know He is there to forgive me and help me get back on the path He wants me to follow. May I always listen to His still, small voice and heed His direction. May I continue to give Him glory and honor in all I do.*

*Wishing you each a blessed day, Carol*
